

# RECORD OF TRAINING LOGBOOK

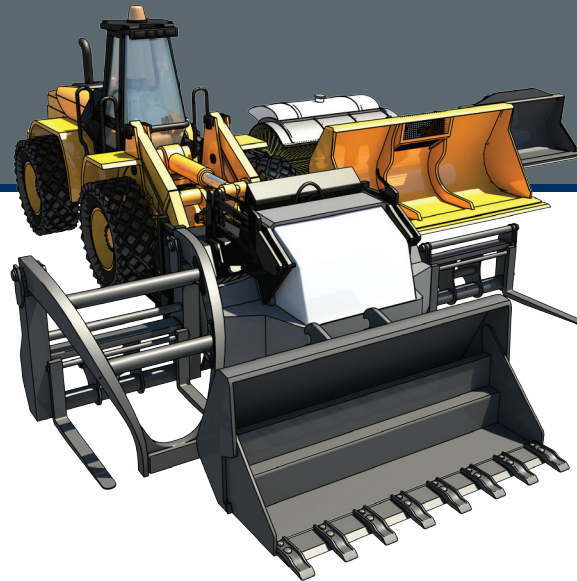

# Integrated Tool Carrier

Verification of  
competency (VOC)

**RIIHAN311F**  
Conduct operations with  
integrated tool carrier

[www.easyguides.com.au](http://www.easyguides.com.au)

This book can also be used as an evidence record of recognition of prior learning (RPL)  
and as evidence of formative assessment tasks

# Contents

Sample pages .....	6
<b>Part 1—Plan and prepare for integrated tool carrier operations .....</b>	<b>9</b>
<b>Part 2—Operate integrated tool carrier to lift and move load to complete work activity .....</b>	<b>25</b>
<b>Part 3—Relocate the integrated tool carrier .....</b>	<b>45</b>
<b>Part 4—Select, remove and fit attachments for an integrated tool carrier .....</b>	<b>51</b>
<b>Part 5—Conduct housekeeping activities .....</b>	<b>61</b>
Record of training summary .....	69

## Complete operations

### (PC 3.1)

#### Prepare integrated tool carrier for relocation.

Obtain details of relocation method and new location.

Clean the machine and attachments.

Contact transport vehicle company with details of the machine and attachment to be relocated or check the machine is suitable and compliant with laws for driving to a new location.

#### Description of work/training performed

I unloaded the two trucks and packed goods at positions where they will be used along the trench. I then placed excess goods in the storage shed.

I checked that the machine was ready for use. I then got work instructions and checked out the work needed. Then I checked the attachment and used the bucket to clear debris and excess over burden ready for a trench. I then refuelled the machine, parked it and completed documents.

I checked the machine. Then I fitted the jib attachment. I then moved pipes and laid them into position with a dogman, using hand and whistle signals. I then refuelled, parked the machine and completed documents.
